

White Cap Awarded 2023 GAINS Move Forward Faster Award

White Cap is proud to receive the 2023 GAINS Move Forward Faster Award. GAINS is a supply chain demand planning and replenishment software platform. White Cap implemented the platform companywide in early 2023.

Each year GAINS hosts the GAINS Summit, presenting awards to partnership organizations with successful supply chain transformation initiatives. The Move Faster Award is presented to a company that displays excellence in change management and focus on empowering decision-making within their supply chain organization.

GAINS awarded White Cap the 2023 GAINS Move Forward Faster Award for our engagement in the implementation process, commitment to bringing systematic change to our organization, and the dedication of the White Cap team.
