

## White Cap Shares Industry Knowledge at Student Expos

White Cap and its Ram Tool associates took to the field this week working as One Team at two events: The [Hall County Tool Expo](#) at Lanier Technical College in Gainesville, GA and Auburn University's [Building Science Lab Expo](#).

Between the two events, more than 500 students interacted with our associates, learned about career opportunities in the construction industry and met with dozens of White Cap's vendor partners, who put on concrete, cutting and drilling and other demonstrations.

White Cap is grateful for the opportunity to showcase the expertise of our knowledgeable associates and meet hundreds of future industry leaders!
